

Hydraulic Tempered Glass Safe Lid

Opening and closing the door is now effortless as the conveniently designed handle (with its center of balance in front) makes it easy to open the door with less force. Shock-resistant glass improves safety, whilst the transparent glass door with wide, aesthetic design provides a pleasant laundering environment.

Hydraulic door close softly, keep user safe and comfortable during laundry.

Durable tempered glass lid.

Well-equipped features
that lighten my day.
**Less tangle,
cleaner clothes!**

SHARP

Intelligent Waterfall System

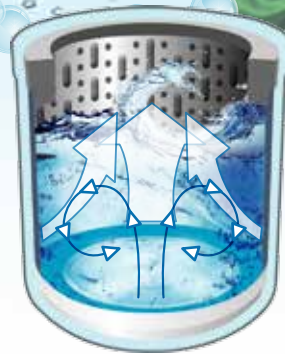

Waterfall currents from 3 direction side boards increase dissolution of detergent in the washing tub

Strong water current enable magic filter collect lint & debris efficiently.

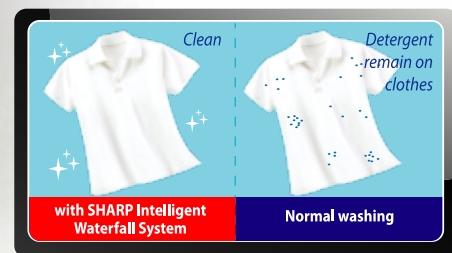

The strong water current and strong complex water circulation generate by pulsator during wash, create strong water circulation to wash clothes thoroughly.

Waterfall from 3 direction

Strong water current increase wash performance

Magic Filter

Equal Wash and Less Tangle

SHARP

Conventional

Pulsator design and wash rhythm program to maximize the washing power, at the same time, clothes can be take out with less effort.

3D Wave

The rotation of pulsator create 3 dimension wave water movements (horizontal, vertical and diagonal) which help remove dirt throughly with every wash.

3 dimension wave water movements

Fuzzy Control

Sensor automatically determine the wash load and type of fabric. Fuzzy logic selects the optimum wash programmed from all setting and mode combinations to obtain consistent results regardless of washing volume.

Soak Wash

The machine's unique soak process soaks clothes in a concentrated detergent solution for 20-30 minutes to help loosen tough dirt particles.

Auto Start After Blackout

There is a memory chip in the PCB that memories washing status at any times. When the washing machine under the condition of abnormal power cuts, it will recover to work and continue to run the same program automatically when the power restored.

Washboard Texture Stainless Steel Tub

The design of the tub surface just like washboard, this unique drum enhances washing performance and minimizes damaging your clothes.

Quick Wash

Gives clothes a faster spin, so they dry faster. This speedy cycle is perfect for a few lightly soiled items, like the blouse and pants you want to wear in a hurry. Complete wash cycle in a quick time!

Safety Lock

Activate safety Lock function to prevent your child from disrupting the operation of your washing machine.
