WHAT MAKES A **SHARP TV**

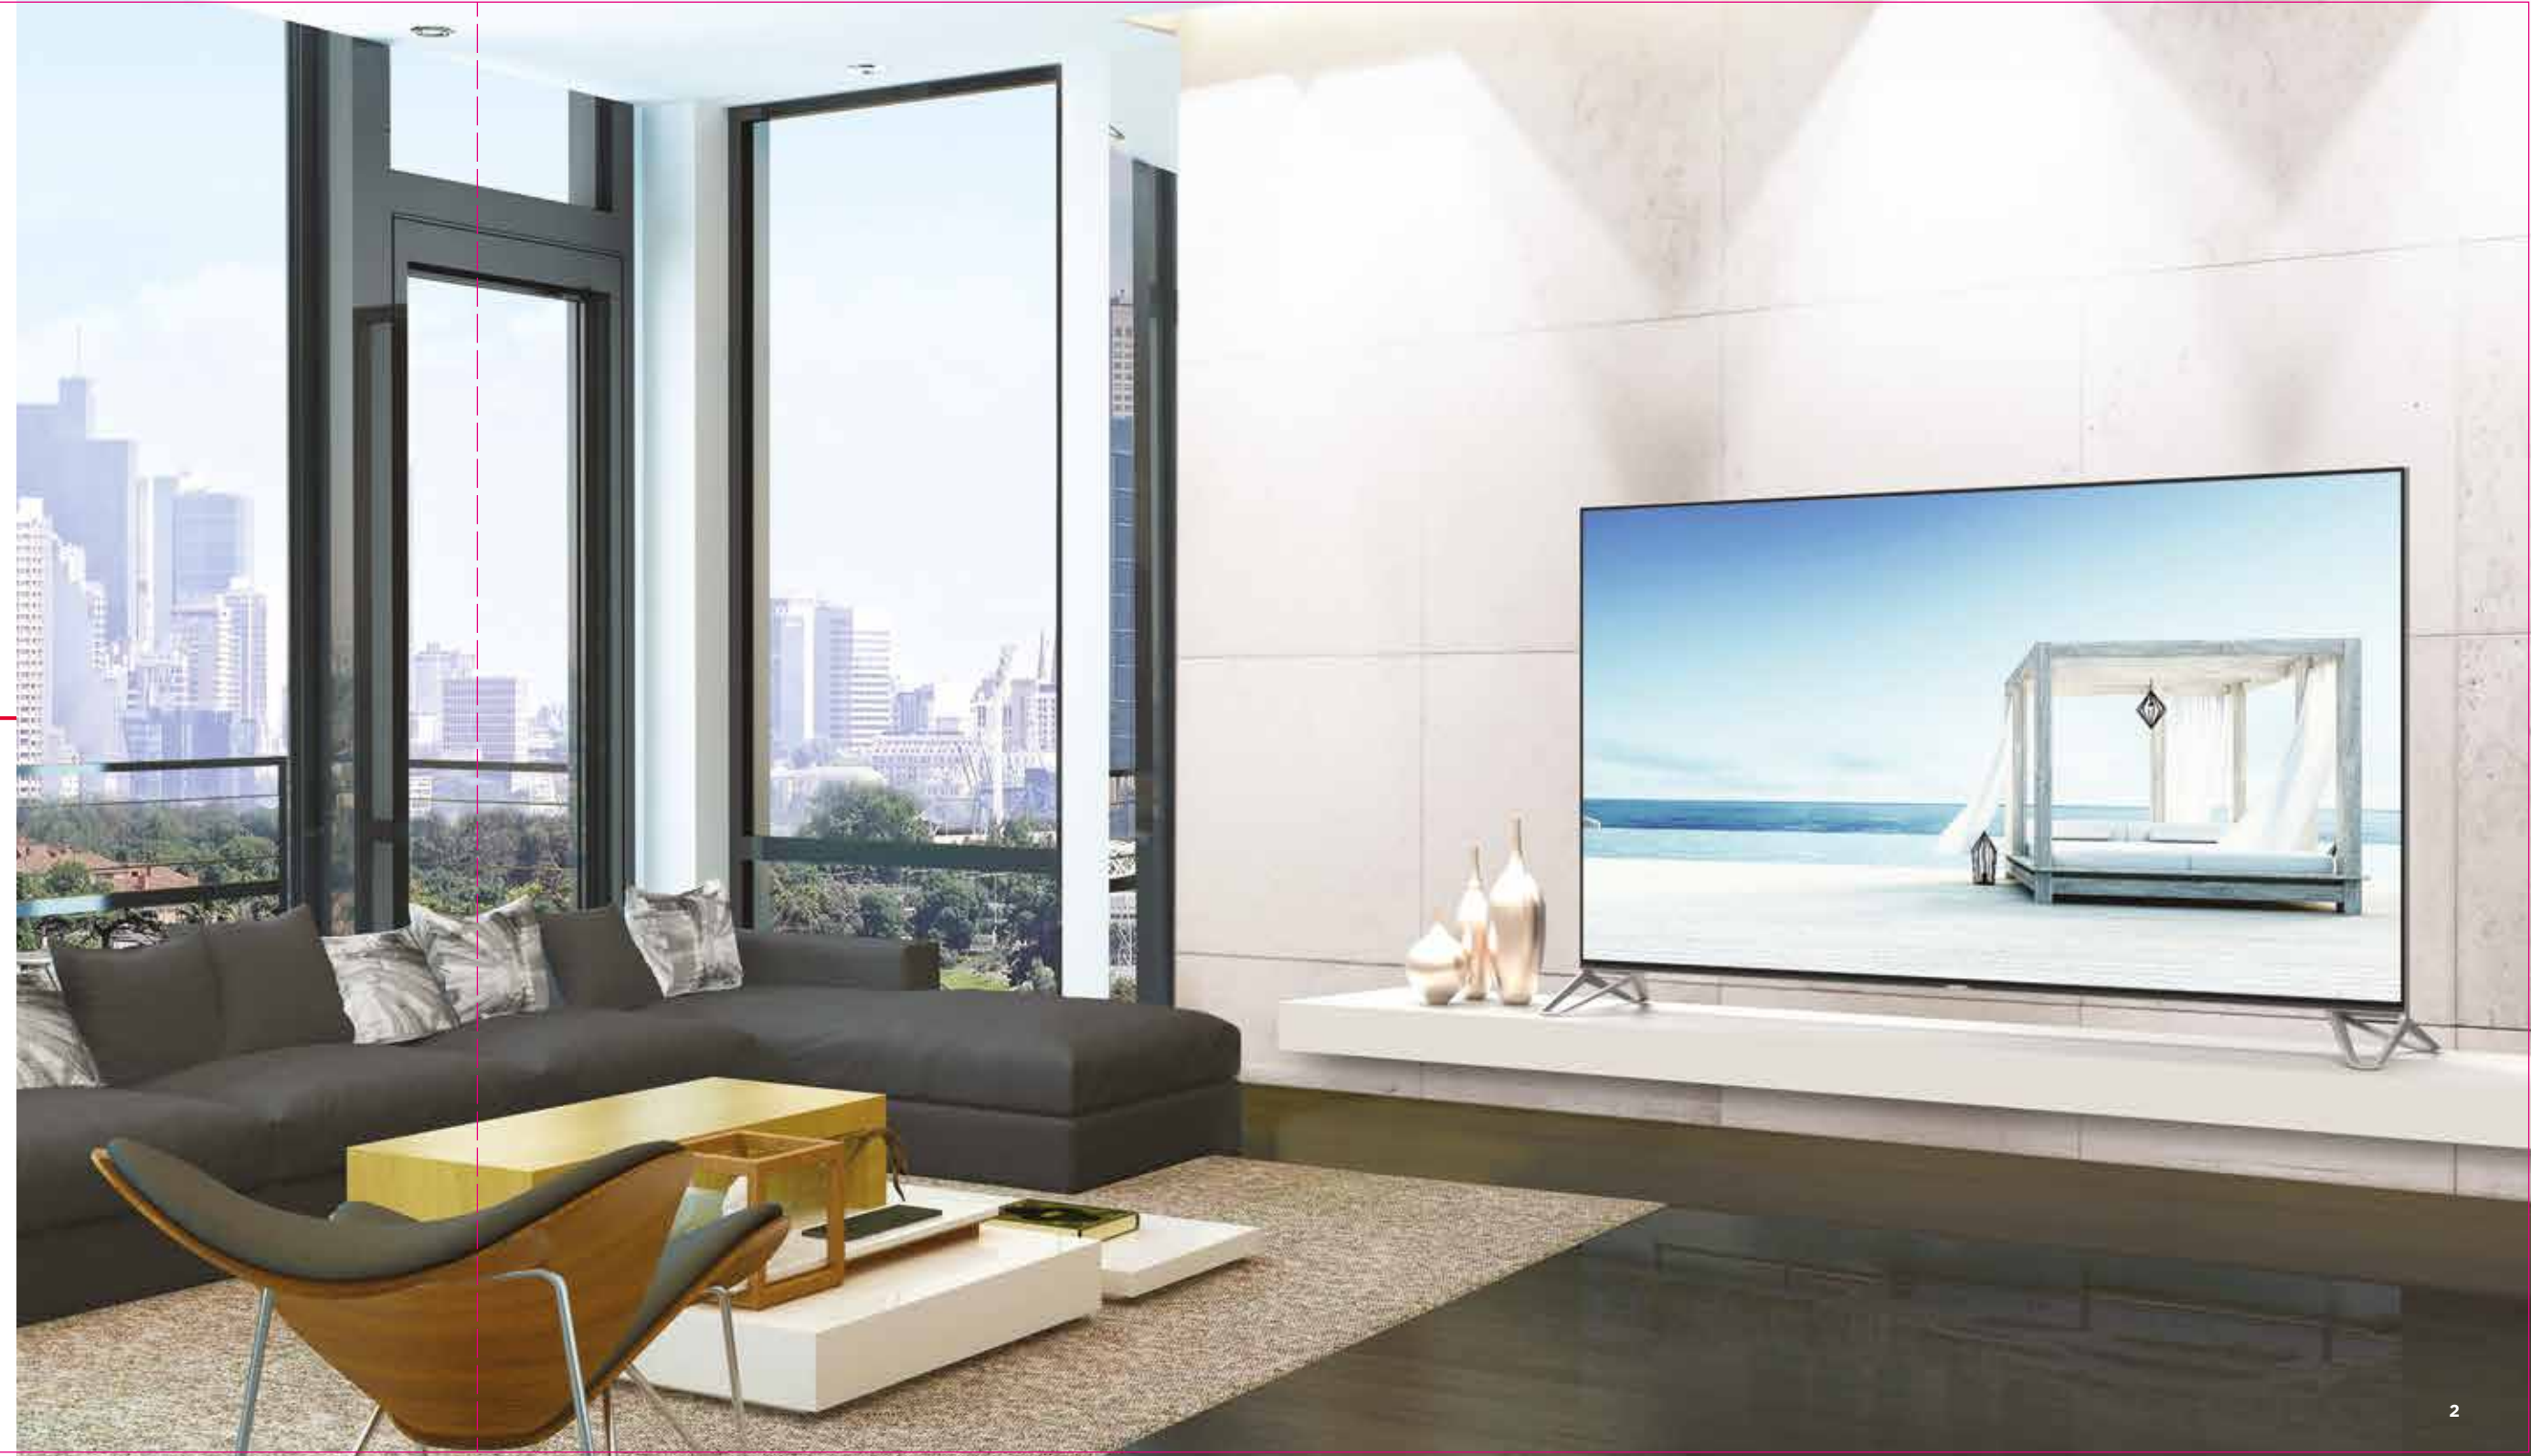

As this is a TV brochure you might be expecting us to tell you that our displays are beautiful. They are. Now that's out of the way, let us explain what else makes our TVs so good.

Each unit is designed with the same care and craft as the first one we ever made. Which also happens to be the first TV made in Japan. Since then, we've added even more improvements.

Our TVs are now even more environmentally friendly, consuming less power and intelligently conserving energy when needed.

Every Sharp TV also comes with 7 shields technology so they're secure from the second they begin their journey to you, and long after they've arrived.

There are a lot more features we could highlight, but that's what the rest of the brochure is for. You can find out more in the following pages, and we hope that it'll help you pick one that will add more colour to your life.

GREEN IS THE ANSWER

***SAVE OVER 25% ENERGY WITH 5-STAR ENERGY EFFICIENCY TESTED BY SIRIM AND APPROVED BY ENERGY EFFICIENT.**

MAKING A TANGIBLE CONTRIBUTION TO ENVIRONMENTAL PROTECTION

Sharp wants to be a pioneer in this area and is committed to the protection of the natural resources on which our lives are based. So we want to make a contribution to the reduction of CO₂ emissions worldwide by manufacturing products that help save energy. In 2005, Sharp officially proved that its TVs are environmentally advanced.

ENERGY EFFICIENCY

With our new series, Sharp has shown how easy energy saving can be. The models are equipped with advanced energy saving features, which help reduce power consumption even for big screens.

* Applicable to selected models only and subject to change according to government energy efficiency policy.
* Eco features are subject to change without prior notice.

7 SHIELDS PROTECTION

All SHARP products pass strict Japanese quality standards. SHARP TVs are proven to have safe protection and high endurance under various circumstances. Now you can enjoy your viewing experience from a quality TV that is protected by 7 Shields.

THE WORLD'S FIRST

8K RESOLUTION TV

AQUOS XU SERIES

8K RESOLUTION TV

A new reality comes along with the stunning detail in pictures that will wow a remarkable resolution revolution. In combination of the world's first¹ 8K-Upconverter and unique 4 Primary Colour Panel Technology², you can now see beautiful pictures in your eyes with the experience of 8K Resolution³. The new astonishing discovery reveals the way you experience.

*4

¹ First in B to C 4K TVs as of Jan 2016.

² Unlike the conventional 3-colour display method, this is a proprietary SHARP method for reproducing colours on a display.

³ As the result of our laboratory testing using a test pattern with 7,680 vx 4,320 pixels. The product is not using on 8K LCD Panel. 8K picture (video) from external input cannot be played backed and 8K broadcasting cannot be received.

⁴ The CES Innovation Awards are based upon descriptive materials submitted to the judges. CEA did not verify the accuracy of any submission or any claims made and did not test the item to which the award was given.

THE WORLD'S FIRST 8K-UPCONVERTER PRODUCES THE DETAIL IN 8K RESOLUTION*

DETAIL 8K RESOLUTION

8K Resolution and 8K-Upconverter are embedded. With our unique Quattron Pro, 4K-4 Primary Colour Panel Technology produces 8K Resolution. Never-Seen-Before picture quality is now here for you to experience the best detailed picture with better sense of depths and immersion.

**As a result of our laboratory testing using a test pattern with 7,680 x 4,320 pixels. The product is not using an 8K LCD Panel. 8K picture (video) from external input cannot be played backed and 8K broadcasting cannot be received.*

COLOUR RICH COLOUR PRO

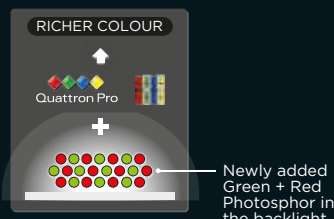

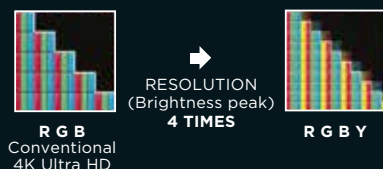

The New LED light device and 4 Primary Colour Panel Technology expand 40% wider than conventional TV by making Green, Red and Yellow colour reproduction to be richer.

**Compare to our conventional model (LC-50LE275X).*

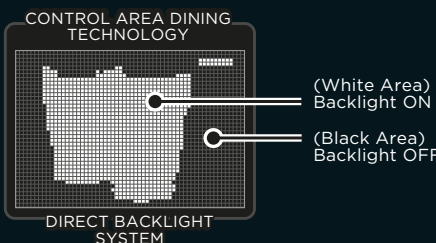

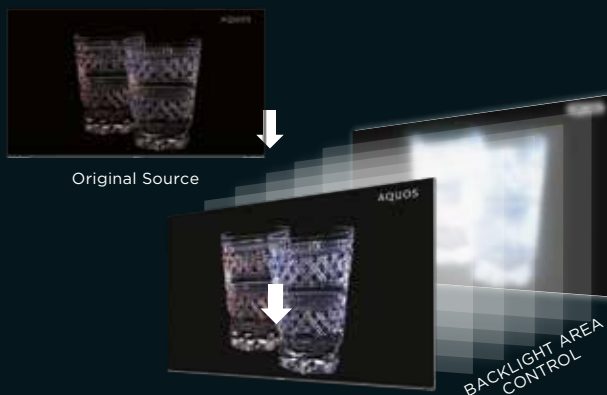

Conventional Wide Colour

Rich Colour Pro

CONTRAST ULTRA DYNAMIC RANGE PRO

X8-Master Engine Pro and the new direct LED backlight system provide a better quality of picture with enhanced contrast by making the dark area of the picture becomes darker and the bright area becomes brighter.

POWERED BY ANDROID TV™ — ENTERTAINMENT TAILORED FOR YOU

YOUR FAVOURITE CONTENT & APP

Watch hit shows, timeless movies and viral videos from Google Play™ and your favourite apps. If your app doesn't have what you are looking for, you can rent or buy thousands of blockbusters, classics and award-winning shows from Google Play™.

LESS BROWSING, MORE WATCHING

Android TV™ brings great content to you, so you can spend less time browsing and more time watching. Just pick the personalized recommendation, it will appear automatically in your home screen. If you know what you want, use Voice Search and Android TV™ will find “the Sopranos” for on-demand episodes, behind-the-scene YouTube™ videos, and full season on Google Play™. Or for date night, try “romantic comedies” or “Hugh Grant movies”.

ANDROID™ GAMING ON THE BIG SCREEN

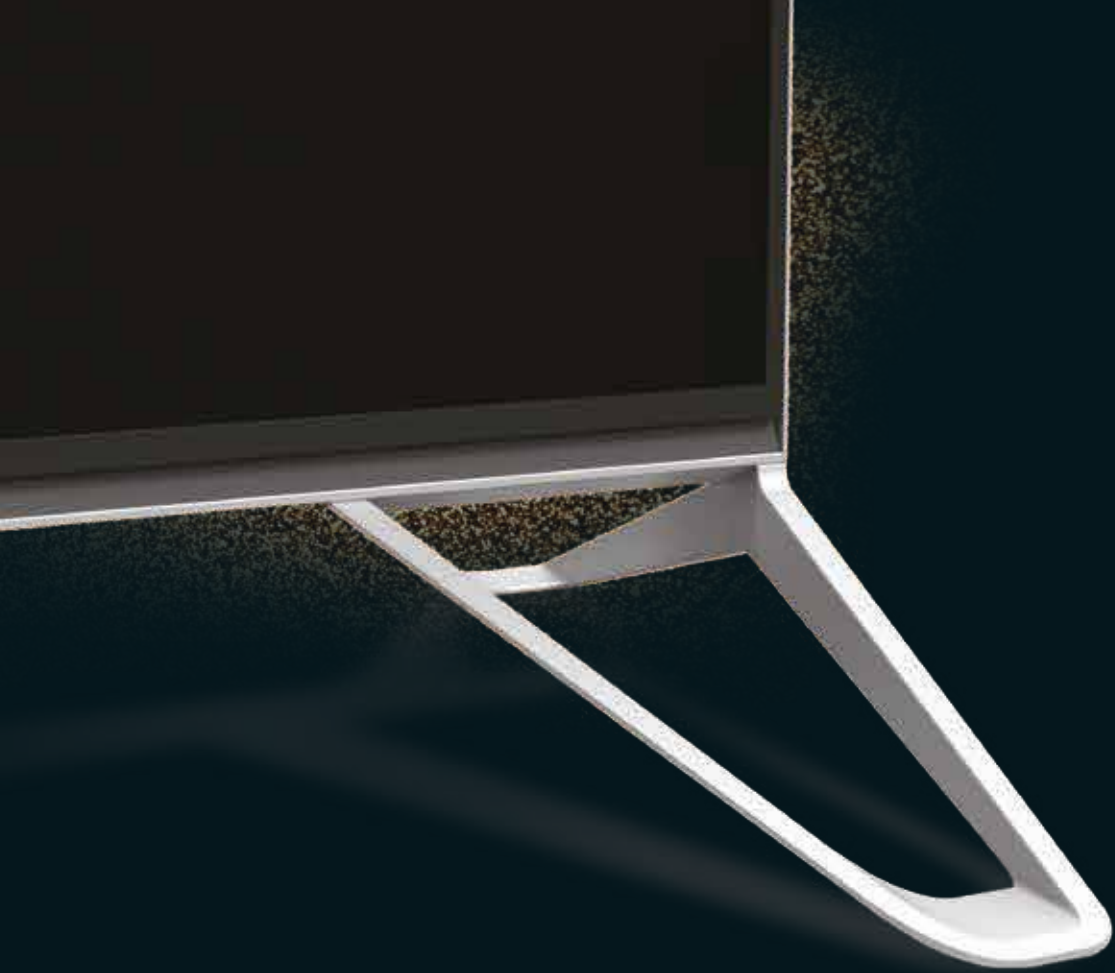

Introducing console-style Android Games on your TV with a gamepad. Immerse yourself in arcade racing, 2D side-scrollers, 3D battles, and beautiful adventures. Or play a quick round of your favourite casual game. Whether you explore alone or compete online to earn achievements. Android TV™ offers a new way to play Android games on your phone, tablet or TV.

GOOGLE CAST™ BUILT IN

Google Cast™ lets you cast movies, shows and photos from your Android or iOS phone device or laptop on your TV. Streaming contents syncs across your phone, tablet and Android TV™ device so you can start a movie on your TV, then finish in bed on your tablet. And controlling Android TV™ is easy; use the elegant remote to pick content and search with your voice. Or, in a pinch, use the remote app on your Android phone or Wear Watch.

ULTRA SLEEK ALUMINIUM DESIGN

The solid loop design unifies the aluminium frame and stand to make the presence of the sense of posh and lightweight. The premium finishing of this model will affix bit of edge in the living room.

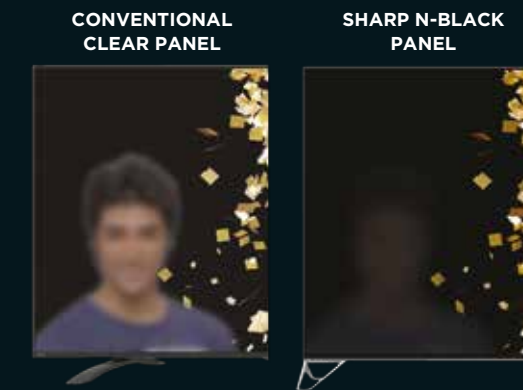

The stylish loop stand is able to be adjusted to the inner part of the TV. Stand can be move further inner position 40cm from each side.*

**Only applicable for LC80XU930X*

N-BLACK PANEL

N-Black Panel adopts new materials to give low reflection but also with clear colour reproduction, especially for rich black, can be realized.

**Only available for LC80XU930X*

	CONVENTIONAL CLEAR PANEL	SHARP N-BLACK PANEL
REFLECTION	High	Low
COLOUR	Dim	Bright
CONTRAST	Low	High

SIMPLE, SMOOTH & HANDY

A Bluetooth enabled remote control is exactly what you need. Touch pad enhances enjoyment of gaming on the big screen. One flick and slide in TV menu. In conventional remote control, one press on the Netflix or HOME screen button to access Movies, Search, Recommendation, Apps, Games, Inputs and Settings.

4K ULTRA HD

LEGENDARY **AQUOS** PICTURE QUALITY NOW IN **4K ULTRA HD** RESOLUTION

65UE630X

Full HD LCD panel (1,920 x 1,080) with 2.7 million pixels

Full HD LCD panel (1,920 x 1,080) with 8.29 million pixels

4K ULTRA HD LCD PANEL

The 4K Ultra HD LCD Panel displays four times the resolution of FULL HD*. Discover perfectly precise detail.

* Compared to Full HD (1,920 x 1,080 pixels)

Low uniformity screen

High uniformity screen

HIGH UNIFORMITY SCREEN

The high uniformity brightness of SHARP's light control technology creates a viewing experience that is incredibly close to the original source.

4K ULTRA HD UPCONVERTER

A newly developed 4K Ultra HD upconverter analyses and enhances video content with lower resolutions (i.e. 1,080p), and produces a more detailed 4K Ultra HD image.

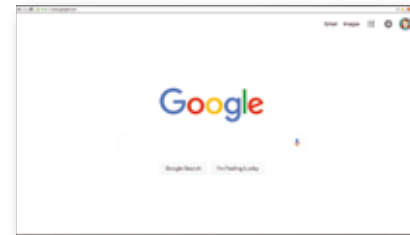

Full HD images, such as Blu-ray discs, or digital broadcasts, are reproduced with sharper details and more vivid colour.

• Colour of UE630X stand is subject to be changed without any notice.
• Images are for illustrative purposes only.

ALL YOUR ENTERTAINMENT IN 3 SIMPLE APPS

Available Models: UA440X, LE380X Series

Sharp's Easy Smart is a simple and smart platform that gives you the widest range of entertainment with 3 basic pre-installed apps.

THE DOOR TO WORLDWIDE CONTENT

YouTube lets you Watch the best internet videos in just one click. Explore the world's latest trends from its daily recommendations, and subscribe to video channels to stay updated with the latest videos.

WATCH TV SHOWS AND MOVIES AT ANYTIME, ANYWHERE

Netflix has the largest subscriber base of any streaming service, and also provides higher resolution videos, even in 4K Ultra HD. With Netflix, you can instantly stream your favorite TV shows, movies and award-winning Netflix originals right to your TV.

EXPANDING YOUR INFORMATION GLOSSARY

Experience the world's most clever search engine within our web browser to make your searching easier. Type anything in the home page and the Google™ search engine will find the best match for you, right on your TV.

Remote Control with Netflix and YouTube button

Easy access to your favorite entertainment.

Easy Smart Platform

Simple user interface.

Android TV, Google Cast, Google Play and other marks are trademarks of Google Inc. The Android robot is reproduced or mortified from work created and shared by Google and used according to terms described in the creative commons 3.0 Attribution License. *1 The result of our laboratory testing using a test pattern with 7,680 x 4,320 pixels. The product is not using an 8K LCD panel. 8K picture (video) from an external input, cannot be played back and 8K broadcasting cannot be received. Compliance to general DVB-T/T2 systems vary across countries.

• Except protruding parts. • The HDTV logo and 1080P qualifier logo are trademarks of DIGITALEUROPE. • Dolby and the double-D symbol are registered trademarks of Dolby Laboratories. • HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries. • The Wi-Fi CERTIFIED Logo is a certification mark of Wi-Fi Alliance. • The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth® SIG Inc. and any use of such marks by SHARP is under license. • Design and specifications are current as of November 2016, but are subject to change without prior notice. • On-Mode power consumption is measured according to IEC62087 Edition 2.

GLOSSARY

	4K Connect Ready With compatible range of 4K standards, 4K content can be seen through devices via HDMI, MHL, or USB.
	4K Ultra HD Enjoy the 4K Ultra HD viewing experience with precise detailed, high uniformity brightness and vivid colour images.
	7 Shields Enjoy your viewing experience on a good Japan quality TV protected by 7 Shields.
	Android TV™ Introducing Android TV: Movies, TV shows and games, perfectly tailored for you. Android TV makes your TV smarter.
	Antenna Booster The booster can be set on or off separately for each channel to match the channel's specific conditions, providing a clear image with exciting sound.
	AQUOMOTION LITE 200/240 LED backlight shuttering reduces motion blur and improves transition in fast motion.
	AQUOMOTION 200/240 AquoMotion converts 50-Hz images to 100Hz and 60Hz images to 120Hz, doubling the frame display speed for improved picture clarity and smoothness. AquoMotion 200/240 also uses scanning backlight technology to perform 100/120Hz control, which results in reduced afterimages and natural reproduction of high-speed pictures.
	AQUOMOTION 1000/1200 Controls the liquid crystal panel drive, reduces motion blur with LED backlight shuttering, and improves transitions in fast motion.
	Bass Enhancer Powered by SRS Labs, Inc. The bass enhancer system creates powerful bass at low frequencies befitting a large display by using an advanced digital system.
	Bluetooth Connect TV and devices wirelessly with quality Bluetooth.
	Clear Picture Processing Reproduces a clearer picture by compensating for various noise types in the picture signal of normal broadcasts or any other low resolution contents.

	Digital Video Broadcasting-2nd Generation Terrestrial The world's most advanced digital terrestrial television (DTT) system, offering more robustness, flexibility and 50% more efficiency than any other DTT system.
	Dolby Audio-Dolby Digital Plus One of Dolby Audio technologies (Dolby Digital Plus), which enhances the quality of sound and functionality. It can support increased bitrates at high quality with more audio channels to provide superior surround sound entertainment for digital high-definition TV broadcasts, optical disc media and online content.
	DTS 2.0 + Digital Out™ DTS 2.0+Digital Out denotes the dual ability to pass the DTA encoded digital btstream to an external DTS decoder for playback as well as fold down the digital surround soundtrack for playback in a 2-channel environment through analog outputs.
	Eagle View By controlling the backlight, motion blur in the center is reduced.
	EASY Colour Adjustment A colour chart is displayed on the viewing image for viewers to adjust to their preferred colours while seeing the displayed image.
	Easy Smart Make your TV smarter with built-in YouTube, Netflix and Web Browser.
	E-touch Remote Experience a simpler touch remote with just your fingertips. Performs quick and intuitive actions.
	Full HD Enjoy Full HD viewing experience in high definition.
	Google Cast™ Cast your favourite entertainment from your Android or iOS mobile device to your TV.
	Google Play™ Google's official store app for Android apps, games and other downloadable content for your Android TV.
	HDMI High-Definition Multimedia Interface HDMI is an interface for digital audio/video signals. HDMI is compatible with the HDCP copy protection standard.

	LCD Panel Made in Japan Our models use high quality LCD Panel made in a plant located in Japan.
	Mobile High-definition Link (MHL) Industry standard for a mobile audio/video interface for direct connection mobile phones and other portable consumer electronics (CE) devices to high-definition televisions (HDTVs) and display.
N-BLACK PANEL	N-BLACK Panel Adopts new materials for less reflections. Also provides clear colour reproduction, and richer blacks.
	Netflix Enjoy the latest entertainment from the comfort of your own home.
	Optical Picture Control (OPC) Power consumption during operation is automatically reduced by controlling the backlight brightness according to room lighting conditions.
	Photo Frame Photo Frame mode enables fast access to photo slideshows.
	Quadcore Processor Enjoy excellent performance with faster processing speeds that allows multiple tasks to be performed simultaneously without delay.
	Quattron Pro Quattron Pro, with enhanced subpixel processing performance, enables reproduction of precise and smooth outlines.
	SDHC See high resolution photos and videos simply by directly inserting SD cards into the slot. Supports formats up till SDHC.
	Sound Reflector Rich detail and superb stereo imaging.
15W (Subwoofer)	Subwoofer An exclusive speaker system for low tone that normal speakers cannot fully represent.
	TELETEXT Teletext information is broadcast in the vertical blanking interval between image frames in a broadcast television signal.

	Timer A preset timer allows you to set a reminder or turn off the TV automatically.
	Ultra Slim Bezel A slim TV design provides a significantly thin bezel, creating a more immersive viewing experience.
	USB Multimedia Player View photos, play music and video from USB memory.
	USB Multimedia Player View photos and play music from USB memory sticks.
	Web Browser View web content from all over the world through the internet browser.
	WiFi certified WiFi certified products which meet industry-agreed standards for interoperability, security, and a range of application specific protocols.
	X2 Able to reduce noise in order to produce a more detailed and smoother picture quality.
	X4 Analyses and enhances video contents of lower resolution, and then upscales and enhances it to 4K UHD-like quality.
	X8 Convert all 4K content to 8K resolution for the first time ever with Sharp's upconverter.
	YouTube Enjoy a multitude of user generated videos for your viewing experience.
